Did You Know?

- **Emailing PO's / WO's from BuildSoft** – All reports, PO's, WO's, and checklists generated by Enhanced Reports, can be emailed or saved in PDF, WORD, RTF, and various other formats. Use this option to send PO's and WO's to vendors and subcontractors, or to send work progress reports to field offices, to request status updates.
- **Purge Utility Now Available** – Purge your company database of previous years' data, storing the historical data in an archive file. By reducing the file size to the number of years worth of data your CPA recommends you must have on hand, you can reduce the time it takes for some critical, time-intensive operations and reports. Training and help on the use of this utility is available via our scheduled, live training sessions, as well as by contacting the BuildSoft Solution Center.
- **Remote Access** – Remote users can access BuildSoft from field office locations, via remote desktop connection, with a Terminal Server (e.g. Windows 2003) acting as host.

BuildSoft Forms

Send [BuildSoft Forms](#) your next order for high quality checks & forms and get an additional 250 free checks and 250 free compatible envelopes! As a bonus, custom logos are always free, a \$30 value! Call at 800-544-3427 today, mention key code P0473-085, and take advantage of this free offer.
