Work Start Date	Tue Feb 25, 2003
Scheduled Completion Date	Fri Feb 28, 2003
Contract Amount (tax included)	\$2,050.00

Supply and installation of all materials and labor customary for a residential electrical system meeting all State and National Electrical Codes. Beyond customary wiring, switching, disconnects, panels etc. this contract shall include power wiring to all HVAC equipment, doorbell wiring and installation, cablevision wiring, telephone wiring and installation of telephone system. The telephone wiring shall be installed in a "home run" manner with 4-pair twisted, unshielded, category 5 cable.

The power supply, setting and final connection of electrical appliances (trash compactor, dishwasher, disposal, instant hot water tap at kitchen sink, refrigerator, freezer, ovens) and built-in ironing board, downdraft vent at gas cooktop, bathroom exhaust fans, bathroom space heaters, in-floor radiant heating strips, central vacuum system and all exterior site lighting (on timers) is also a part of this contract.

The electrician shall be required to coordinate, through the Builder, with the HVAC subcontractor (for special power and/or electrical panel requirements), plumbing subcontractor (for dedicated circuits at circulating hot water pumps etc.), security contractor and the telephone and power companies. All devices shall be "?????" brand in white.

(choose one of the following)

This contract includes the supply of all wiring, rough-in and finish fixtures, cans, housings and devices.

or - This contract includes the supply of all wiring, rough-in fixtures, cans, housings etc. required prior to the installation of sheetrock. All other fixtures and parts are supplied by others and installed as a part of this contract.

or - This contract includes the supply of all wiring and devices. All fixtures (rough-in and finish) are supplied by Others.
