To Whom It May Concern:

LaFitte Custom Homes, Inc. is a custom homebuilder specializing in upscale custom homes. We have used Buildsoft for our accounting needs for the past 14 1/2 years and have been extremely satisfied with the program. It has been very helpful, especially in the job cost area. The reports that are offered can produce as much detail or as little as you need. It is very easy to generate the right report for every aspect of your business need. We have explored many other software programs, some more expensive and some less expensive, but Buildsoft was more closely aligned to our need than any other.

At one point before Constellation acquired Buildsoft, we were ready to make a change because we were not receiving adequate support or any necessary updates to the system. That situation has dramatically changed, and we will continue with Buildsoft and their wonderful support team. We are extremely satisfied with the transformation that has taken place.

Sincerely

Dottie LaFitte
