Constellation HomeBuilder Systems
75 Frontenac Drive, West Wing
Markham, ON L3R 6H2

Attention: Mr. Daniel Zinman

Dear Daniel:

We've been using BuildSoft since 1996, and would like to take this opportunity to tell you how pleased we are with the system.

As a small custom homebuilder, we've consistently stayed in touch with changing technology, and haven't found any other system that performs as well as BuildSoft.

By far the most tightly integrated solution, BuildSoft lets you do what you need to, with the least amount of effort, so you get more out of the system than what you input.

Over the years, we've discovered all kinds of ways to improve our business systems by using BuildSoft. For example, with BuildSoft's accounting software, we've cut out redundant steps, improved quality control, and error checking processes. With the click of a mouse, we get the necessary information to make vital decisions and increase efficiency, resulting in "the best bang for our buck."

We appreciate the updates and enhancements Constellation consistently provides to keep our system state-of-the-art. This allows us to develop and grow, as well as address changing technology requirements.

BuildSoft's software solution brings "best business" practices, usually restricted to larger homebuilding companies to small and medium-sized builders.

In my opinion they should all be using BuildSoft.

Yours truly,

Wynwood Associates

Todd Wacome
